ALIGN YOUR TEAM

Make sure that everyone has a clear understanding of how their objectives contribute to the goal the team has, as well as to the company itself. This promotes engagement and unity when people are working remotely.

COMMITTED ALL THE WAY

Make agreements and be sure to keep everyone to their word. Once a commitment is made al resources needed will be destined to effectively make it a reality. If done correctly, you'll create transparency about what everyone is doing.

SHHH... THE SECRET IS TRACKING!

How can you know your team's progress if you don't measure them frequently? Set measurements that are easy to understand and create a reference point of individual performance. Have a weekly follow up and create reports to help you have more enriching conversations with your employees.
